BORN TO BE HANGED

SEEMS TO HAVE BEEN THE FATE OF THE ARCHER FAMILY.

Sam Archer Strangles a Rope Under the Sheriff's Superintendence. Which Makes Three for Lynch and One for Law—Story of the Archer Gang's Crime—His Pleading Robbery.

SHALON, Ind., July 10.—A large crowd was here Friday to witness the execution of Samuel Archer. He ascended the gallows in accordance with the usual Catholic practice, the sheriff and his deputies. He was composed and collected, and stood the test firmly. At 10:30 the black cap was placed on his head, and at 1:17 the executioner raised the guillotine. The head fell, and he died from strangulation in thirty minutes. He was nearly dressed in a suit of black, with white tie. The coroner placed the remains in a box, which was then placed in a hearse. He died at 2 a. m., sleeping soundly until 5 o'clock, when he arose and partook of a light breakfast at 6 o'clock.

The crime for which Archer was hanged was for the murder of Sam Bunch, a neighbor, and though not a regular member of the Archer gang, was none too good to have been. In the spring of 1882, he, young Martin Archer and Sam Marley stole a raft of logs and ran them down White river several miles and sold them. Archer claimed that Bunch and Marley did not give him his share of the raft, and that the sale of the logs, and they had a number of quarrels about the matter, in one of which, on July 12, 1882, Marley, as is supposed, killed the younger Archer and fled the country. The murdered Archer was found on July 13, and was killed by Bunch and some of the Archer gang, who had set out to hunt for him, and when found was covered with blows. Bunch escaped on some of the logs, and was later found by the other parties if they did not want some fresh clothes. This remark of Bunch, and the bravado and insulting manner in which he talked about the killing of young Archer, together with the fact that Bunch was found to have furnished Marley money to leave on, so angered Martin Archer, Sr., that he resolved to punish Bunch for his insolence, and through him discover the whereabouts of Marley, the murderer of young Archer. Shortly after the killing of young Archer, Martin, Tom, John and Sam Archer, and John Lynch sent Bunch back to his home, having sent word by a young man who lived with him that they wanted to see him in business, and marched him over into Orange county, several miles from his home. Marley said to him: "I'll give you just two minutes to tell where Sam Marley is, or you are a dead man."

Bunch replied, "Oh, he's a fellow who won't shoot anybody," whereupon Marley gave the command to his men to kill Bunch. Bunch fell a corpse, pierced by a half dozen bullets. Marley stepped up and fired another bullet into his head.

The gang all escaped at that time, but Sam Archer was subsequently captured and his trial followed, resulting in conviction and the passing of the death sentence. He has held up with all the characteristic coolness of the Archer family, and was not broken down, and the tears coursed freely down his cheeks. Many have visited him since his confinement in jail, where he was kept in a cell, and all the employees to have that portion of the building. When the entire upper floor was vacated, sentinels were placed at the stairways and the doors leading to the cell, and he was given better ventilation to the senate chamber. Complaints deep and loud were heard from those who were ordered away from public places and posts.

Says his Att. Gen. Washington, July 10.—The Star publishes an interview with Mr. W. J. Harrison, of counsel for the government in the United States case, in which he is reported as saying that the Corbitt interview in the "Post" is untrue. He says he was found in the case, either in preparation or trial, to lead to the supposition that there were any others than Galt who had the best knowledge of the murder. The interview referred to was an alleged New York Herald interview with the late Mr. Corbitt, in which Corbitt is represented as talking that the woman who was at one time the wife of Galt had called upon him and shown him papers that plainly proved that several prominent men were conspirators with Galt in the assassination of President Garfield.

Another Movement for Higher Wages. FRANKFORD, July 10.—A movement looking to a demand for an increase in wages is on foot among the blast furnace employees in this vicinity. They are now thoroughly organized as Knights of Labor. Thus far the employees of the blast furnace district have presented demands equivalent to 30 per cent. of an advance for all employees, thus restoring the wages of 1883. The management so far has heard from, slightly a willingness to meet the demand for a general advance, but to raise the wages of certain classes of work. A general meeting will be called and a schedule of prices determined upon.

Prohibition Congressional Convention. MAISON, Ind., July 10.—The prohibitionists in mass convention here Friday nominated John R. Ralston of this county as the third party candidate for congress in the eleventh Indiana district. Of the sixty delegates were in attendance. Of the eight counties in the district eight were represented.

According to the Paris Journals. Mr. John W. Mackay, according to the Paris journals, has fitted up the smoking-room of his New York hotel in quite a unique manner. The walls are covered with cushions and the room is arranged and running up to the ceiling, the walls representing \$20,000 in value. They always manage to have the news in Paris—Chicago Tribune.

BRITISH POLITICAL NEWS.

Speculating on the New Parliament—With Gladstone Resigning.

LONDON, July 10.—The Conservatives and Unionists continue to elect their candidates in the counties, and an estimate of the Unionist strength in the House of Commons is made. The Standard says although the Conservatives will not be in an absolute majority in the next parliament, they will be far from the great power party and more than a match for any two of the others; hence, according to the doctrine upheld by Gladstone during the home rule debate, they will be entitled to claim the control of affairs.

Earl Cowper writes that judging from his experience during two important years as Lord Lieutenant of Ireland, Gladstone's scheme must lead to separation.

The Daily News says if Mr. Gladstone returns to parliament as the leader of the minority he will doubtless resign.

The Unionists insist on re-electing Robert Bannatyne, M. P. for Forfarshire, where they re-elected James William Barclay, and in Falkirk borough, re-elected W. L. Sinclair, and Harlewood, where they re-elected Thomas Richardson. The Tories have gained a further division of Unionist support. The Unionists have been uniformly successful in Ireland so far as heard from.

John Dillon, in a speech delivered at Newcastle, against Sir G. O. Trevelyan, the Unionist candidate, said that the past three months, when statesmen had sought to bring forward a measure of Home Rule for Ireland, had done more to make the Irish loyal than the eighty-six years of the Union.

The total vote of the British Unionists at the last election was 1,010,257, and the total vote of the Gladstonians was 1,012,211, with 210 seats.

A Petition Against Evictions. LONDON, July 10.—The Anti-Corn Law League of Great Britain has petitioned the Lord of Exchequer to order that no stay at all be made on November 1st, and that there be no prospect of a splendid harvest, which will enable farmers to pay the land rent, and that evictions now would ruin thousands.

Conservative Voters Committed. DUBLIN, July 10.—Three of the members belonging to the Conservative party in the House of Commons have been committed for trial.

MADE A GENERAL CLEARANCE. Proceedings That Don't Seem to Fore-shadow Union Sessions. WASHINGTON, July 10.—At 10 o'clock Friday afternoon the senate went into session, and the speaker's table was cleared of all cases selected as test cases. The Republican speaker, Mr. Reed, and the Democratic speaker, Mr. Hendricks, both of whom were present, and the speaker's table was cleared of all cases selected as test cases. BORN TO BE HANGED

SEEMS TO HAVE BEEN THE FATE OF THE ARCHER FAMILY.

Sam Archer Strangles a Rope Under the Sheriff's Superintendence. Which Makes Three for Lynch and One for Law—Story of the Archer Gang's Crime—His Pleading Robbery.

SHALON, Ind., July 10.—A large crowd was here Friday to witness the execution of Samuel Archer. He ascended the gallows in accordance with the usual Catholic practice, the sheriff and his deputies. He was composed and collected, and stood the test firmly. At 10:30 the black cap was placed on his head, and at 1:17 the executioner raised the guillotine. The head fell, and he died from strangulation in thirty minutes. He was nearly dressed in a suit of black, with white tie. The coroner placed the remains in a box, which was then placed in a hearse. He died at 2 a. m., sleeping soundly until 5 o'clock, when he arose and partook of a light breakfast at 6 o'clock.

The crime for which Archer was hanged was for the murder of Sam Bunch, a neighbor, and though not a regular member of the Archer gang, was none too good to have been. In the spring of 1882, he, young Martin Archer and Sam Marley stole a raft of logs and ran them down White river several miles and sold them. Archer claimed that Bunch and Marley did not give him his share of the raft, and that the sale of the logs, and they had a number of quarrels about the matter, in one of which, on July 12, 1882, Marley, as is supposed, killed the younger Archer and fled the country. The murdered Archer was found on July 13, and was killed by Bunch and some of the Archer gang, who had set out to hunt for him, and when found was covered with blows. Bunch escaped on some of the logs, and was later found by the other parties if they did not want some fresh clothes. This remark of Bunch, and the bravado and insulting manner in which he talked about the killing of young Archer, together with the fact that Bunch was found to have furnished Marley money to leave on, so angered Martin Archer, Sr., that he resolved to punish Bunch for his insolence, and through him discover the whereabouts of Marley, the murderer of young Archer. Shortly after the killing of young Archer, Martin, Tom, John and Sam Archer, and John Lynch sent Bunch back to his home, having sent word by a young man who lived with him that they wanted to see him in business, and marched him over into Orange county, several miles from his home. Marley said to him: "I'll give you just two minutes to tell where Sam Marley is, or you are a dead man."

Bunch replied, "Oh, he's a fellow who won't shoot anybody," whereupon Marley gave the command to his men to kill Bunch. Bunch fell a corpse, pierced by a half dozen bullets. Marley stepped up and fired another bullet into his head.

The gang all escaped at that time, but Sam Archer was subsequently captured and his trial followed, resulting in conviction and the passing of the death sentence. He has held up with all the characteristic coolness of the Archer family, and was not broken down, and the tears coursed freely down his cheeks. Many have visited him since his confinement in jail, where he was kept in a cell, and all the employees to have that portion of the building. When the entire upper floor was vacated, sentinels were placed at the stairways and the doors leading to the cell, and he was given better ventilation to the senate chamber. Complaints deep and loud were heard from those who were ordered away from public places and posts.

Says his Att. Gen. Washington, July 10.—The Star publishes an interview with Mr. W. J. Harrison, of counsel for the government in the United States case, in which he is reported as saying that the Corbitt interview in the "Post" is untrue. He says he was found in the case, either in preparation or trial, to lead to the supposition that there were any others than Galt who had the best knowledge of the murder. The interview referred to was an alleged New York Herald interview with the late Mr. Corbitt, in which Corbitt is represented as talking that the woman who was at one time the wife of Galt had called upon him and shown him papers that plainly proved that several prominent men were conspirators with Galt in the assassination of President Garfield.

Another Movement for Higher Wages. FRANKFORD, July 10.—A movement looking to a demand for an increase in wages is on foot among the blast furnace employees in this vicinity. They are now thoroughly organized as Knights of Labor. Thus far the employees of the blast furnace district have presented demands equivalent to 30 per cent. of an advance for all employees, thus restoring the wages of 1883. The management so far has heard from, slightly a willingness to meet the demand for a general advance, but to raise the wages of certain classes of work. A general meeting will be called and a schedule of prices determined upon.

Prohibition Congressional Convention. MAISON, Ind., July 10.—The prohibitionists in mass convention here Friday nominated John R. Ralston of this county as the third party candidate for congress in the eleventh Indiana district. Of the sixty delegates were in attendance. Of the eight counties in the district eight were represented.

Something New in Traveling Caps. There's something new out that will knock the spots off the wire-cushion business. It is a new traveling cap, made with an air cushion in the back. Ordinarily it is just like any other traveling cap, but it is new in that it has a cushion in the back, and don't want all the hair on the back of your head rubbed off, all you have to do is to put your mouth down to the cushion, and then you are up and away with a cushion on your head. Did you ever see anything more than that?—Chicago Herald.

—The excellent work of the Beloit College academy is gaining the attention of our young men. Several have been there the past year. Its full announcement is in another column.

—Prof. C. W. Merriam, of Beloit, who was recently shot in the neck by a burglar, has so far recovered as to be able to ride out. It is thought he will entirely recover from the wound, which was at first considered fatal.

John Hannan, the Beloit man who was charged with horse-stealing, was released on his own recognizance until December 30th. This virtually ends the case as the evidence was not strong enough to make conviction possible.

—The funeral services of the late Wm. E. Hodge will be held to-morrow morning at 11 o'clock, at the United Brethren church, in the town of Fulton, two miles north of Barker's corner. President Whitford, of Milton college, officiating.

—At two o'clock this afternoon Mr. L. B. Carlo had secured 308 signatures to the Evansville "out, out" petition. Only a few more names are wanted, and we would advise all tax payers not to delay longer, but immediately fall into the procession and bring the canyass to a close.

—A pacing race at the fair grounds is on the programme this afternoon. It is between a horse from Whitewater and one from Waukegan, neither of them having made any record as yet. Fifty dollars has been put up by each side, although the race is intended more as a trial of the merits of the two animals.

—Judge Bennett yesterday afternoon ordered the divorce case of Catherine Worthington against James Worthington dismissed; and the cost taxed on the defendant. Several other cases came up but were continued. This morning the motion for a new trial in the case of Tricketwood against Hawthorne was dismissed. It is probable that court will be adjourned within a few days.

—The frequent tampering with the "head gates" at the lower water power has caused considerable trouble and annoyance to the New McLean manufacturing company and the lower cotton mill. The "evil one" seems to have taken hold of some persons down that way, and their devilry has so aroused certain ones that evil doesers will do well to beware lest they find themselves in the law's embrace, or something with a little more muscle.

—The Lake Geneva Herald publishes Ogden H. Pothers' Fourth of July oration at Geneva in full, and says in its account of the celebration: "The oration at the park and the other exercises were well received, the oration being highly lauded. Mr. Pothers is a natural orator and as a speaker has few equals in the state. His address is given in full elsewhere and deserves to be kept. It is short but to the point; concise but full of meat."

—DeLoes Williams came up before Judge Patton this morning on a charge of receiving stolen property. They property in question was a pair of sleeve buttons belonging to Ed. Ehlinger and stolen from the same by Williams. Williams was permitted to labor for the benefit of Short's Hawthorne during the next six months. His partner, William Seaver, who stole the buttons, and gave them to Williams, was sent down for sixty days, this being his first offense of the kind.

—The officers of the Janesville militia companies this morning received notice that the first regiment had been ordered into camp at Whitewater as stated in the Gazette last evening. The time of the encampment will be August 23-28. Colonel Charles King has been assigned to duty with the regiment during the entire period of the encampment. He is to render those commanding such assistance as they may require in the instruction of officers and men in tactics and discipline and will make a complete report of his observations to the commander-in-chief.

—The adjuster of the Echos Insurance company, of Hartford, has settled the claim for loss by fire on Mr. J. M. Pool's premises last Monday. The loss on the barn was placed at \$200; on the house \$150, and the loss on the furniture at \$100, making a total of \$450. Mr. Pool's loss of the time was estimated at \$700. The total loss of the fire will be reduced to less than \$1,000, most of which is covered by insurance. Mr. Pool's insurance was with Siles Hayner's agency, Jackson & Smith's block.

—W. W. Lowell was yesterday afternoon held for trial on a charge of adultery by Judge Patton. The principal witness in the case was Mrs. W. C. Stevens, who made what she claimed to be a complete confession. No evidence whatever was presented for the defendant, he claiming that the whole affair is a scheme of blackmail. Bonds were given in the sum of one thousand dollars, the trial being fixed for July 22d. District Attorney Malone and Wynne & Hyzer appeared for the state and Sale & Pierce for the defendant.

—The Rev. A. A. Hoskins, who is well known in this city and Rock county, and who has had charge of several parishes in this vicinity, appears to have struck a big "break" of luck. This from the Gogebec Iron Tribune of July 1st, who interest his many friends, who hope good luck will continue to be his: "The Rev. A. A. Hoskins, who has been the pastor of a little south-side church at a salary of \$500 a year, is selling stock and property for mining companies and in this way has made probably \$25,000 in the past three months. He got his start by mortgaging his little house and lot and investing his all in Gogebec. He resigned his pastorate some months ago and is now a regular bonanza."

—Messrs. Sonfield & Spellman, the cigar manufacturers, located in the Libbard block, formerly occupied by the Janesville Boot Company, on River street are turning out some very choice cigars. The original "Snack" again comes to the front and is meeting with a ready sale, while the "A. A." a new brand straight Havana filled is rapidly gaining in popularity. The firm also make the "Adonis" a clear Florida Havana, which is unrivaled in point of excellence. Mr. Spellman is an able manufacturer, thoroughly conversant with the business in which he has had more than thirty years' experience.

—The superintendent of the manufacturing department and is turning out a large and choice line of goods. Mr. Sonfield attends to the outside business, and is recognized as a popular and successful salesman. These gentlemen are entitled to substantial support by their home dealers in their efforts to supply the trade with a good line of goods at reasonable prices. Let us patronize home industries and help to build up home institutions.

HALF A SEAT FOR HIM.

An Oshkosh's Man's Story about General Grant.

The Oshkosh Northwestern: "A gentleman in this city who is a great hand to put up reminiscences and relating them in an interesting manner says that not long ago he met one of the Warren brothers, of Albany, Green County, Wis. and from him learned the following story concerning General Grant which to his knowledge has never been in print before: During the war Warren Bros. had an extensive mail carrying route which they operated for the government and at one time they were summoned to go to New Orleans upon some business. On their way down while at a station in Tennessee they met the wife of a Federal colonel who was on her way to nurse her wounded husband. As the train drew up it was noticed that all the cars were freight cars excepting one which was the private car of General Grant. The gentleman thinking to get a seat in it for the lady, approached the general and explained the circumstances, but was told that the car was for General Grant and such friends as he might choose to invite with him. So the lady made the trip in a box car. On the way home the Warrens were at another station where a freight train with General Grant's special car attached pulled up to the platform. A dozen or more wounded men, soldiers in their way north to regain their health started to enter the general's car but were sent back by the attendants who told them that the car was for the sole use of General Grant. The latter, who was on the platform, noticed that something was the matter, stepped up and inquired the causes of the commotion, and was told what the trouble was. "Let them go in," was the command to the attendants, "When there are wounded soldiers to care for, half of one seat is enough for me."

IT IS HONKY DEW.

What Effects the Elm Tree Through the City.

Some ten days ago a gentleman entered the Gazette office bearing some elm leaves, literally covered with small insects, which were apparently taking the life of all our elms. In localities where the elms abound as shade trees, the sidewalks were wet, caused by the sap falling from the wounded trees. Not being posted in entomology, we wrote a letter to Prof. Seymour, of the State University, enclosing specimens, and asking him to explain. We have received no reply, but this, from the Oshkosh Northwestern, may throw some light on the subject:

"For a considerable length of time the leaves on the elm trees of this city have been so heavily coated with a sticky substance that at times it has been so profuse that it has fallen in large drops to the walks below. Lately the leaves of the elm trees have been falling off in large quantities, and it is thought that the presence of the former is the cause of the latter phenomenon. K. M. Entelioson is not prepared to say whether the substance on the leaves called by some 'Honey Dew,' is caused by the presence of insects on the under side of the leaves, or whether it is thrown off from the leaves themselves in a natural manner. In Milwaukee, Fond du Lac, Appleton and other cities the same thing has been noticed and a Milwaukee flower girl is of the opinion that the giving off of the sticky substance is perfectly natural, but that during an ordinarily rainy season it is washed away and is not noticeable. The hot weather, he says, has caused the sap to run earlier than usual, and in consequence the leaves will fall earlier. The presence of insects on the leaves, he states, is due to their desire to eat the sweet sap. There are hundreds of elm trees about Oshkosh that have been affected by the intense heat and continued drought."

"The Out Out."

The telegraphic announcement that work had commenced on the so-called Evansville out-off is dyspeptic at the Janesville Gazette—very excellent authority. The fact is this great enterprise is waiting for the first man in Janesville to say, "Barkie is willing."

Not quite so bad. Only one more than half the tax payers is wanted, and the canvassers have got their eyes on him. The building of the out off will be a thing of the very near future. Sure.

The Weather.

At seven o'clock this morning the thermometer indicated 65 degrees above zero. Clear with north wind. At one o'clock p.m. the register was 83 degrees above zero. Partly cloudy with north wind. For the corresponding hours one year ago the register was 62 and 72 degrees above zero.

The Board of Review.

The board of review, which has been in session daily at the city clerk's office for the past two weeks, concluded its labors this forenoon. The assessed valuation of personal property is \$1,333,000; real estate, \$2,807,350, making a total of \$4,140,350. This is a total of \$83,120 more than the valuation of last year. The assessed valuation of real and personal property in the several wards is as follows:

Personal Real Estate. Total.

First ward.....\$14,275.....\$1,200,000

Second ward.....12,750.....800,000

Third ward.....10,000.....700,000

Fourth ward.....8,000.....600,000

Fifth ward.....5,000.....400,000

Totals.....\$1,333,000.....\$4,140,350

THE SALOON SYSTEM.

An Explanation from Father Roche.

In Relation to His Lecture on the Saloon Business.

JANESVILLE, Friday, July 9th, '90.

In your paper of Tuesday last, July 6, appeared the substance of an excellent discourse on "The Saloon System" delivered in Court Street M. E. church, by Rev. T. DeWitt Peake, on Sunday evening, July 4th. This discourse was intended to be a refutation of certain assertions made by me in a lecture in St. Mary's church Sunday, June 30th. He claimed the right to criticize my lecture because it had become public property by publication.

Instead of disputing his claim, I wish to say I am heartily glad he used it. Even though I affected nothing by my lecture besides, I have reason to congratulate myself that I gave occasion to Rev. Mr. Peake to utter his eloquent denunciation of the evils resulting from the saloon business as at present carried on.

With nearly all his ideas on this subject as reported in the Gazette, I fully agree. Yet there is in his words as reported an intimation I cannot bear to read under, namely, that I have a wish to shield the saloon business, that I "dare" invite the pulpit down to a lower level right to be or a practice that brings waste, physical degeneracy, pauperism, disease and brutal violence in its train."

And this, not from the general tenor of my remarks (which could not be twisted into such a meaning), but because I said the saloon business is not "bad in itself." The charge of favoring the saloon is not openly made against me, nor do I think Mr. Peake meditated any such unkindness. There seems to me to be a misunderstanding as to the meaning of the words, "bad in itself." Catholic theologians, and I think moralists generally, distinguish between the act in itself (evil in itself), and malum per accidens (evil on account of some circumstance). The first is intrinsically bad and can never be allowed, as blasphemy, impurity etc. The second is bad, not because its very nature is bad, but because some of its attending circumstances are bad. Thus many things indifferent or even good in themselves may become evil on account of some circumstance connected with their use. Thus walking is an indifferent or good thing in itself generally, but when we walk through our neighbor's cultivated field our walking may become a malum per accidens by tramping down his grain. It was with this distinction before my eyes that I said the saloon business is not "evil in itself." In this Mr. Peake must agree with me unless he belongs to the ranks of those who assert that the use of alcoholic liquors as a beverage is essentially evil. Because if such use is not essentially evil it may be allowed within proper limits, and what one may use within proper limits another may within proper limits furnish him.

I am one of those who think that alcoholic liquors may be used as beverages within certain limits. Consequently I hold that they may be sold with proper restrictions. I am very far, indeed, from believing that the proper restrictions are observed in the saloon business to-day. If Mr. Peake agrees with me so far, and little reason to infer anything else, we are not opponents but co-laborers.

If he believes in the intrinsically evil nature of alcohol, not only in abuse but also in simple use, we are opponents and he has the right to question the correctness of my opinion, but he has no right to imply that I "invite the pulpit down to a lower level to shield" the saloon business either "real" or "ideal."

Utterly disgusted, as I am with the business as we now find it, and almost hopeless of ever seeing it approach the ideal of harmlessness, I wish to oppose it so far as any convictions will permit. But my love of individual liberty will not permit me to work for prohibition until all other and less violent means of restraining the dangerous traffic in alcohol within proper limits shall have been proved ineffectual.

Another reason why Mr. Peake may have misinterpreted my position in regard to the liquor business, is that my lecture was not, and was not intended to be, a complete exposition of my views. I had on a previous Sunday evening spoken to my people on the "Dangers of the saloon business to the saloonkeeper, etc." and on last Sunday evening I was to have spoken on "License and Prohibition considered." This last, however, I did not deliver on account of the excessive heat. This lecture I intend to deliver on Sunday evening, July 13th.

This lecture of mine, which seems to have attracted some attention, was not intended for publication. My only intention was to instruct Catholics, such as belong to the congregation I have the honor of being pastor of. It was my second attempt at lecturing, and I had such a lack of confidence of making any impression, that I was astonished to be called to permit it to appear in an abbreviated form.

However, I shall ask the favor of having my next inserted more fully in the columns of the Gazette, that I may not in the future, directly or indirectly, be represented as a shielder of a business I despise. Absence from the city from Monday last until this evening, prevented me from sooner offering this publication of my views.

I sincerely hope we have not heard the last word from Rev. Mr. Peake on this important subject. A mere difference of opinion as to the proper methods of restraining the saloon business, should not prevent us from striving in friendly rivalry against a common enemy—the demon of drink.

A VETERAN SHOWMAN.

An Old Circus Man who Claims a Residence in Wisconsin.

In conversation with the well known showman, W. C. Coup, the Gazette man was somewhat astonished to hear that for the past thirty years he has made this state his home. He first resided in Delaware, where he built the first cheese factory. For some time he confined his attention to stock raising in Walworth county, but by degrees drifting into show business, he associated himself with P. T. Barnum and laid the foundation of that showman's circus fame and fortune. In 1870 he started the Castello circus, playing around the lakes. This cleared during the season \$30,000, and it was at the close of that season that he joined the Yankee showman. From 1871 to 1870 he was manager, organizer and owner of the best known show that ever traveled, a show whose success was greater than he had ever anticipated. During that time he built the great New York Hippodrome which is now called the Madison Square Garden, there was produced the great Roman races, and afterwards Mr. Coup organized the great Fincore concerts which were frequently attended by as many as 13,000 people in one night. After this he conceived the idea of furnishing New York with a vast and complete aquatic and though he met with many discouragements, still his energy and enterprise was such that in June, 1876, the building thoroughly fitted up was thrown open to the public and for three years continued to be one of the greatest sights of the Metropolis. He imported fish from every piece of water that was known and his collection of deep sea monster, included the different kinds of whale, sharks and many others. From Japan he imported a fish commissioner, at which fish from all parts of the world were served. The bill of fare was eagerly sought for as curiosities, and kept with interest. At this time Mr. W. H. Vanderbilt sent for him, and told him that if he would undertake to get up a series of amusements at Staten Island, he would build all the elaborate required for the transportation of passengers, etc., and offered Mr. Coup almost royal terms. Coup, however, had for some time been looking at Coney Island, and accordingly projected the various improvements, such as the boulevards and the Coney Island aquarium, and after that his greatest ventures were the equestrianism, his three-ringed circus (the first ever used) and the hippodrome and chariot races. This show grew to such enormous proportion, and created so much professional jealousy, that P. T. Barnum made a proposition to him to buy the entire outfit, paying cash down and then to give him \$5,000 per year to manage it for him. This offer was refused. He received opposition from every quarter and every little trick known to little minded and selfish showmen was resorted to, which finally culminated in the breaking up of the greatest show the world had ever known. After many years of experience Mr. Coup states that the horses at present forming his equine current are the best educated that he has ever known and he looks forward to pleasing thousands in Janesville next Monday, Tuesday and Wednesday.

The Educated Horses.

An exchange says: The W. C. Coup & Hadfield Company Equestrianism entered on its second last week, last evening, at the Washington Boulevard rink. The performance throughout is one of the greatest novelties of the age and evokes rounds of applause. The dancing of the horse General Sherman is one of the strong features of the show. He is a pure white stallion of about 1,400 pounds, and in his movements and positions is the essence of grace. A very sensational fire act is introduced, which is both thrilling and daring. A two-story house is in flames, the only inmate of which is a young girl, who is seen at an upper window screaming for help. The horse Louisa hears her cries, and dashing up the blazing stairs, rescues her as the other horses appear carrying piles of water. The scene is a realistic one and creates great enthusiasm.

CHURCH DIRECTORY.

Giving the Time and Place Where Divine Services Will Be Held on Sunday.

Help, Lord, for the godly man censured; for the faithful fall from among the children of men. They speak vanity every one with his neighbor; with flattering lips and with a double heart do they speak. The Lord shall cut off all flattering lips, and the tongue that speaketh proud things. Who have said, with our tongues we will prevail; our lips are our own; who is lord over us? For the oppression of the poor
